

Strategic Integration Partnership

Embed Neuroscience-Based Cognitive Frameworks into Your Learning Ecosystem

A revenue-sharing partnership designed to integrate our neuroscience-based Human Intelligence Labs into your existing platform or programs. Partners receive a complete integration, enablement, and growth support system to deliver high-impact cognitive learning experiences at scale.

Partnership Performance Indicators

Integration Timeline: 4–6 weeks

Revenue Share: 30–50%

Platform Support: 24/7

Client Satisfaction Rate: 94%

Ideal Partner Profiles

This partnership is suited for:

- EdTech platforms expanding premium learning offerings
- Educational institutions enhancing curriculum depth
- Training organizations seeking cognitive development programs
- Corporate L&D departments for workforce development
- Learning communities and development ecosystems

Integration Package (What Partners Receive)

- Each partner is provided with a comprehensive Cognitive Framework Integration System, including:
 - Secure API integration with full technical documentation
 - White-label platform access
 - Custom integration support
 - Dedicated technical partnership team

Partner Enablement & Delivery Support

- Structured onboarding and partner activation process
- Facilitation frameworks and delivery guides
- Co-branded learning assets and materials
- Technical and operational integration assistance

Growth & Strategic Support

- Quarterly strategic planning and review sessions
- Market expansion and scaling guidance
- Performance analytics and reporting dashboard
- Regular program and content enhancements

Operational Framework

- Embedded seamlessly into existing platforms and programs

- Applicable for academic and professional audiences
- Compatible with cohort-based learning models
- Integrates with diverse learning tracks and systems

Financial Model

- Revenue-sharing based on delivered programs
- Transparent reporting and accounting structure
- Flexible partnership terms
- Minimum guarantee options available

(Final commercial terms defined on a case-by-case basis.)

Implementation Roadmap

Week 1 – Discovery & Assessment

Platform evaluation and strategic alignment

Week 2 – Integration Planning

Technical and operational roadmap development

Week 4 – Implementation

API integration and system testing

Week 6 – Launch

Go-live with first cohort

Week 12 – Optimization & Scale

Performance review and growth expansion

Partnership Value Proposition

- Proven neuroscience-based cognitive frameworks
- Seamless integration into existing ecosystems
- End-to-end technical and operational support
- Scalable revenue-sharing business model
- Continuous innovation and content updates
- High client satisfaction and learning impact
